### a

AAFP 'hot line' fills residency openings, May, p. 216  
 AAFP's 27th Annual Scientific Assembly moves into Chicago's McCormick Place, June, p. 155  
 abdomen, blunt trauma to, in children (*tip*), June, p. 145  
 ABFP elects new officers, April, p. 189  
 activated charcoal (*tip*), March, p. 207  
 AFP celebrates its twenty-fifth anniversary, April, p. 200  
 airway management, emergency, \*May, p. 146  
 alkaline phosphatase, distinct, in lymphoproliferative disorders (*tip*), April, p. 177  
 allergic child, \*February, p. 88  
 alopecia areata in Down's syndrome (*tip*), January, p. 149  
 AMA surveys, prescribing, etc. (*ed*), January, p. 55  
 analgesics in myocardial infarction (*tip*), March, p. 205  
 anemia, iron deficiency, \*April, p. 136  
 anesthetic, investigators use new cell preparation to study, April, p. 192

anesthetics developed, closed system of delivery of, March, p. 227  
 angina, Prinzmetal's, autonomic nervous system and (*tip*), January, p. 154  
 angina pectoris  
   —after coronary artery bypass (*tip*), January, p. 149  
   —nitroglycerin ointment in (*tip*), April, p. 172  
   —vitamin E in (*tip*), May, p. 195  
 anorectal surgery, outpatient, \*March, p. 94  
 anorexia nervosa, management of (*tip*), January, p. 159  
 anorexia nervosa patients, behavior modification in (*tip*), May, p. 181  
 antacids  
   —\*April, p. 111  
   —drug spotlight (*ed*), April, p. 69  
 antibiotics, topical, irrigating wounds with (*info pl*), May, p. 161  
 antidepressants, tricyclic, in heart disease (*info pl*), May, p. 160  
 appendicitis, acute, white blood cell counts in blacks with (*tip*), March, p. 199  
 arrhythmias  
   —detecting, after myocardial infarction (*tip*), March, p. 200  
   —with intracardiac catheter (*tip*), May, p. 200  
 artery disease, coronary, young women and (*tip*), April, p. 163  
 artery entrapment, popliteal (*tip*), January, p. 157  
 aspirin, rectal absorption of (*tip*), January, p. 150  
 asthma management, approaches to, \*March, p. 74  
 asthma patients, acute, radiographic abnormalities in (*tip*), March, p. 209

atrial myxoma, left (*tip*), February, p. 196  
 atrial tachycardia, drugs of choice for, \*March, p. 178  
 automobiles, restraining devices in (*tip*), May, p. 169  
 autotransfusion in trauma surgery (*tip*), May, p. 175  
 avulsion injuries in patients receiving corticosteroids, \*June, p. 74  
 axillary nerve blocks, \*May, p. 135

### b

bacteremia, pneumococcal, occult (*tip*), January, p. 153  
 bacteriology, office, \*January, p. 85  
 balloon catheter control of hemoptysis (*tip*), June, p. 144  
 barium enema, sigmoidoscopy and, for inguinal hernia (*tip*), June, p. 144  
 baroreceptor activity, digitalis and (*tip*), February, p. 191  
 behavior modification in anorexia nervosa patients (*tip*), May, p. 181  
 biliary atresia  
   —(*tip*), March, p. 203  
   —hepatic portoenterostomy for (*tip*), April, p. 176  
 biomedical research, animals in (*ed*), June, p. 67  
 birth control pills, age limit for (*info pl*), May, p. 160  
 bite wounds, \*April, p. 93  
 blacks with acute appendicitis, white blood cell counts in (*tip*), March, p. 199  
 blood cell counts, peripheral white, value of (*tip*), February, p. 196  
 blood coagulation in cancer patients (*tip*), May, p. 189  
 blood donors, carboxyhemoglobin levels in (*tip*), June, p. 148

### cancer

—and immunosuppressive therapy, unusual toxicities from, \*February, p. 178  
 —bone marrow in neoplastic disease (*tip*), June, p. 141  
 —bone scanning, \*March, p. 84  
 —breast, adrenalectomy and chemotherapy for (*tip*), January, p. 151  
 —breast, screening for (*tip*), April, p. 163  
 —carcinoid syndrome (*tip*), January, p. 158  
 —CEA in bronchogenic carcinoma (*tip*), January, p. 159  
 —colorectal (*tip*), February, p. 193

—diagnosis of plasma cell myeloma, \*January, p. 76  
 —Ewing's sarcoma (*tip*), June, p. 146  
 —head and neck, immunologic abnormalities in (*tip*), April, p. 171  
 —inoperable lung, coagulation abnormalities in (*tip*), May, p. 187  
 —lung, irradiation and hydroxyurea in (*tip*), May, p. 188  
 —otalgia, \*January, p. 108  
 —patients, blood coagulation in (*tip*), May, p. 189  
 —patients, professor says doctors not communicating with, May, p. 218  
 —prognostic significance of breast tumor size (*tip*), February, p. 209  
 —reserpine in hypertension: present status, \*June, p. 120  
 —risk, clues to: biologic markers, \*March, p. 153  
 —statistics, ASC releases, January, p. 169  
 —support after mastectomy (*info pl*), March, p. 185  
 candidiasis, disseminated, and skin lesions (*tip*), May, p. 169  
 carboxyhemoglobin levels in blood donors (*tip*), June, p. 148  
 carcinoid syndrome (*tip*), January, p. 158  
 cardiac pacemakers, problems of, discussed at AHA meeting, January, p. 177  
 cardiac pacing, temporary transvenous (*ed*), May, p. 75  
 cardiac patients, reconditioning, \*January, p. 122  
 cardiography, ultrasound (*tip*), February, p. 191  
 caries, dental (*tip*), January, p. 155  
 catheter, intracardiac, arrhythmias with (*tip*), May, p. 200

catheter control, balloon, of hemoptysis (*tip*), June, p. 144  
 catheterization for inguinal hernia operations (*tip*), April, p. 164  
 CEA in bronchogenic carcinoma (*tip*), January, p. 159  
 cervical lymphadenitis, childhood (*tip*), March, p. 209  
 charcoal, activated (*tip*), March, p. 207  
 charcoal filter used in antipoisoning treatment, March, p. 219  
 chemical chauvinism (*ed*), February, p. 73  
 children  
 —activated charcoal (*tip*), March, p. 207  
 —allergic child, \*February, p. 88  
 —biliary atresia (*tip*), March, p. 203  
 —blunt trauma to the abdomen in (*tip*), June, p. 145  
 —child who fails to grow, \*June, p. 108  
 —childhood cervical lymphadenitis (*tip*), March, p. 209  
 —circumcision (*tip*), April, p. 176  
 —corticosteroids in status asthmaticus (*tip*), May, p. 183  
 —Coxsackie virus infections (*tip*), April, p. 173  
 —dental caries (*tip*), January, p. 155  
 —febrile seizures in, \*January, p. 114  
 —fluoroscopy in (*tip*), June, p. 138  
 —headaches in, \*May, p. 105  
 —heroin addicts and their newborn infants (*tip*), March, p. 208  
 —hiatal hernia in (*tip*), March, p. 205  
 —human chromosome analysis, \*April, p. 76

- hyperoxemia without retrolental fibroplasia (*tip*), May, p. 177
- idiopathic nephrotic syndrome (*tip*), April, p. 175
- infantile obesity, \*March, p. 162
- infantile psychogenic water drinking (*tip*), April, p. 173
- infectious pericarditis (*tip*), January, p. 157
- intellectual development and malnutrition (*tip*), March, p. 204
- isoniazid-resistant tuberculosis in (*tip*), June, p. 137
- Lomotil ingestions in, \*June, p. 93
- lymphoid hyperplasia of the ileum (*tip*), January, p. 154
- medical management of juvenile thyrotoxicosis (*tip*), May, p. 176
- meningiomas in childhood (*tip*), February, p. 197
- mucocutaneous lymph node syndrome (*tip*), April, p. 180
- neonatal necrotizing enterocolitis (*tip*), February, p. 201
- neonatal pneumopericardium (*tip*), May, p. 199
- neutrophil counts in neonatal infections (*tip*), April, p. 165
- nonrandom laterality in malformations (*tip*), May, p. 182
- occult pneumococcal bacteremia (*tip*), January, p. 153
- oral contraceptives and congenital defects (*tip*), May, p. 189
- organophosphates—a pediatric hazard, \*May, p. 121
- partially treated meningitis (*tip*), February, p. 204
- participating in their own health care, May, p. 210
- pertussis: a persistent problem (*tip*), May, p. 171

- phototherapy and growth (*tip*), April, p. 168
- phototherapy and hyperbilirubinemia (*tip*), May, p. 193
- prognosis of the nephrotic syndrome (*tip*), June, p. 133
- radiographic abnormalities in acute asthma patients (*tip*), March, p. 209
- renal transplants in (*tip*), April, p. 165
- restraining devices in automobiles (*tip*), May, p. 169
- Reye's syndrome, \*March, p. 146
- Reye's syndrome (*tip*), March, p. 211
- rubella vaccine levels (*tip*), February, p. 205
- sarcoidosis in (*tip*), April, p. 163
- second thoughts on breast feeding (*tip*), June, p. 148
- sickle cell 'nondisease' (*tip*), January, p. 162
- toilet training (*tip*), April, p. 180
- toxicity of diiodohydroxyquin (*tip*), May, p. 194
- treatment of streptococcal infections (*tip*), April, p. 169
- uneven dietary protein (*tip*), March, p. 212
- value of peripheral white blood cell counts (*tip*), February, p. 196
- chlordiazepoxide in chronic bronchitis (*tip*), May, p. 177
- chordoma, sacrococcygeal (*tip*), May, p. 183
- chorionic gonadotropins, use of, in obesity, \*May, p. 156
- chromosome analysis, human, \*April, p. 76
- circulatory changes during excretory events (*tip*), February, p. 192
- circulatory system, smoking and (*tip*), February, p. 197

- circumcision (*tip*), April, p. 176
- "Clinical Quiz," *AFP's* (*ed*), May, p. 71
- "Clinical Quiz" reminder (*ed*), June, p. 65
- CO exposure caused by city traffic, article suggests methods to lessen, May, p. 213
- coagulation abnormalities in inoperable lung cancer (*tip*), May, p. 187
- coffee—treat or trick?, \*June, p. 101
- colonoscopy (*tip*), March, p. 201
- colorectal cancer (*tip*), February, p. 193
- congesting cuffs in heart failure (*tip*), February, p. 201
- Congress and "fiscal responsibility" (*ed*), June, p. 67
- contraception, gonorrhea and (*tip*), March, p. 212
- contraceptives, oral, and congenital defects (*tip*), May, p. 189
- coronary care unit, new, used at Harvard football games, January, p. 170
- corticosteroids
  - avulsion injuries in patients receiving, \*June, p. 74
  - in status asthmaticus (*tip*), May, p. 183
- Coxsackie virus infections (*tip*), April, p. 173
- crystalloid and colloid in septic shock (*tip*), February, p. 209

## d

- dental caries (*tip*), January, p. 155
- depression, psychological aspects of, \*May, p. 89
- dialysis, home (*tip*), January, p. 162
- diaphragmatic abnormalities, peritoneography for (*tip*), February, p. 197

diazoxide for hypertensive crisis, \*May, p. 128

dietary protein, uneven (*tip*), March, p. 212

diethylstilbestrol exposure and vaginal lesions (*tip*), March, p. 208

digitalis and baroreceptor activity (*tip*), February, p. 191

diiodohydroxyquin, toxicity of (*tip*), May, p. 194

diuretic-induced hypokalemia, \*January, p. 101

diuretics (*ed*), January, p. 57

dopamine: new uses for an old drug, \*April, p. 149

Down's syndrome, alopecia areata in (*tip*), January, p. 149

dromostanolone therapy, hypertriglyceridemia during (*tip*), February, p. 191

drug prices have remained stable, says company president, January, p. 172

drug programs, military, APA publishes statement on, May, p. 206

drug reactions, adverse (*tip*), March, p. 213

drug research, prison, PMA publishes guidelines for, May, p. 207

dysgeusia, idiopathic (*info pl*), March, p. 185

## e

echocardiography, diagnostic, \*February, p. 78

ectopic hyperparathyroidism (*tip*), February, p. 200

elderly, alternative housing for, studied in Philadelphia, February, p. 219

electrical injury (*tip*), May, p. 200  
emphysematous bullae, hemorrhage into (*tip*), May, p. 187

endocarditis, infective, changing character of, \*March, p. 117

energy crisis in surgical patients (*tip*), March, p. 199

enterocolitis, neonatal necrotizing (*tip*), February, p. 201

enzymatic dissolution of gastric phytobezoars (*tip*), April, p. 179

Ewing's sarcoma (*tip*), June, p. 146

excretory events, circulatory changes during (*tip*), February, p. 192

exertional myoglobinemia and rhabdomyolysis (*tip*), April, p. 168

extremity fractures, rehabilitation in, \*March, p. 107

## f

family crises, \*February, p. 132

family history, identifying inherited disease through, \*February, p. 118

family practice department, University of South Alabama to establish, February, p. 221

family studies (*tip*), March, p. 211

febrile seizures in children, \*January, p. 114

fire statistics released by U.S. Consumer Product Safety Commission, March, p. 227

fluoroscopy in children (*tip*), June, p. 138

food additive inactivates some viruses on contact, June, p. 168

football players, freshman, neck injuries present in, June, p. 167

foreign body ingestions, \*April, p. 123

fractures

—extremity, rehabilitation in, \*March, p. 107

—open tibial, perils and pitfalls of, \*January, p. 64

frontal sinusitis, acute, complications of, \*May, p. 80

## g

gastric phytobezoars, enzymatic dissolution of (*tip*), April, p. 179

glomerulonephritis, rhesus monkeys used to study, January, p. 171

gonadotropins, chorionic, use of, in obesity, \*May, p. 156

gonococcal infection, pharyngeal (*tip*), May, p. 193

gonorrhea

—and contraception (*tip*), March, p. 212

—recommended treatment schedules, 1974, \*February, p. 157

grow, child who fails to, \*June, p. 108

growth, phototherapy and (*tip*), April, p. 168

## h

hand syndrome, shoulder- (*tip*), April, p. 177

head and neck cancer, immunologic abnormalities in (*tip*), April, p. 171

headaches in children, \*May, p. 105

health care bill of Senator Brock

(*ed*), April, p. 67

health care costs and defensive medicine (*ed*), May, p. 71

health care TV series, Los Angeles, nationally syndicated, March, p. 220

health service, program to improve, recommended, February, p. 229

heart

—analgesics in myocardial infarction (*tip*), March, p. 205

—and Lung Institute awards grant to CMDNJ, June, p. 162

—angina pectoris after coronary artery bypass (*tip*), January, p. 149

- arrhythmias with intracardiac catheter (*tip*), May, p. 200
- attack victims, paramedics trained to reach and treat, April, p. 194
- attacks, MD discusses downturn in premature deaths from, April, p. 187
- autonomic nervous system and Prinzmetal's angina (*tip*), January, p. 154
- circulatory changes during excretory events (*tip*), February, p. 192
- coffee—treat or trick?, \*June, p. 101
- detecting arrhythmias after myocardial infarction (*tip*), March, p. 200
- diagnostic echocardiography, \*February, p. 78
- digitalis and baroreceptor activity (*tip*), February, p. 191
- disease, tricyclic antidepressants in (*info pl*), May, p. 160
- drugs of choice for atrial tachycardia, \*March, p. 178
- failure, chronic, ouabain in (*tip*), May, p. 182
- failure, congesting cuffs in (*tip*), February, p. 201
- failure, refractory, treatment of (*tip*), March, p. 204
- left atrial myxoma (*tip*), February, p. 196
- left ventricular blood flow velocity (*tip*), June, p. 145
- liver function following acute myocardial infarction (*tip*), May, p. 199
- neonatal pneumopericardium (*tip*), May, p. 199
- nitroglycerin in acute myocardial infarction (*tip*), June, p. 140
- nitroglycerin ointment in angina pectoris (*tip*), April, p. 172
- postoperative follow-up of ventricular septal defect (*tip*), February, p. 204
- reconditioning cardiac patients, \*January, p. 122
- smoking and the circulatory system (*tip*), February, p. 197
- sounds, first and second (*ed*), February, p. 71
- suggestion of myocardial infarction (*tip*), January, p. 158
- surgery, open, hereditary spherocytosis and (*tip*), April, p. 175
- survival following ventricular fibrillation (*tip*), June, p. 142
- temporary transvenous pacemakers in the community hospital, \*May, p. 115
- ultrasound cardiography (*tip*), February, p. 191
- vitamin E in angina pectoris (*tip*), May, p. 195
- young women and coronary artery disease (*tip*), April, p. 163
- hematuria, asymptomatic proteinuria and (*tip*), June, p. 149
- hemodialysis in the home, \*February, p. 149
- hemodynamic response to PEEP (*tip*), June, p. 136
- hemophilia, unsuspected, surgical procedures in (*tip*), June, p. 136
- hemoptysis, balloon catheter control of (*tip*), June, p. 144
- hemorrhage
  - after lung biopsy (*tip*), January, p. 153
  - into emphysematous bullae (*tip*), May, p. 187
- hepatic portoenterostomy for biliary atresia (*tip*), April, p. 176
- hernia, inguinal, sigmoidoscopy and barium enema for (*tip*), June, p. 144
- heroin addicts and their newborn infants (*tip*), March, p. 208
- heroin overdose, treating, \*February, p. 141
- herpes genitalis (*tip*), January, p. 150
- HEW program, new, needy people benefit more under, May, p. 215
- hexachlorophene, sudden death and (*tip*), March, p. 200
- hiatal hernia in children (*tip*), March, p. 205
- history, family, identifying inherited disease through, \*February, p. 118
- hydatidiform moles, biochemical changes in (*tip*), May, p. 176
- hydroxyurea, irradiation and, in lung cancer (*tip*), May, p. 188
- hyperbilirubinemia, phototherapy and (*tip*), May, p. 193
- hypercholesterolemia, familial, new test developed to detect, February, p. 229
- hyperoxemia without retrolental fibroplasia (*tip*), May, p. 177
- hyperparathyroidism, ectopic (*tip*), February, p. 200
- hypertension
  - adolescent, prevalence of (*tip*), May, p. 195
  - discussed at recent symposium, January, p. 173
  - reserpine in, present status, \*June, p. 120
- hypertension studies, more mild, needed, April, p. 191
- hypertensive crisis, diazoxide for, \*May, p. 128
- hypertriglyceridemia during dromostanolone therapy (*tip*), February, p. 191
- hypnosis, court upholds admissibility of evidence developed under, June, p. 156
- hypokalemia, diuretic-induced, \*January, p. 101

hypouricemia (*tip*), January, p. 151  
hypoxia, pulmonary alveolar, release of vasoconstrictors during (*tip*), March, p. 213

## i

idiopathic dysgeusia (*info pl*), March, p. 185  
idiopathic nephrotic syndrome (*tip*), April, p. 175  
ileum, lymphoid hyperplasia of (*tip*), January, p. 154  
immunologic abnormalities in head and neck cancer (*tip*), April, p. 171  
immunosuppressive therapy, unusual toxicities from cancer and, \*February, p. 178  
infantile obesity, \*March, p. 162  
infectious pericarditis (*tip*), January, p. 157  
infective endocarditis, changing character of, \*March, p. 117  
inflation (*ed*), February, p. 69  
influenza vaccination of patients with kidney disease (*tip*), January, p. 149  
inguinal hernia operations, catheterization for (*tip*), April, p. 164  
inherited disease, identifying, through the family history, \*February, p. 118  
insomnia, clinical study of, \*March, p. 140  
intellectual development and malnutrition (*tip*), March, p. 204  
iron abuse (*ed*), April, p. 69  
iron deficiency anemia, \*April, p. 136  
irradiation for retinoblastoma, sarcoma after (*tip*), January, p. 160  
irrigating wounds with topical antibiotics (*info pl*), May, p. 161  
irritable bowel syndrome, \*March, p. 168

ischemic skin ulcers, managing, \*February, p. 108  
isoniazid-resistant tuberculosis in children (*tip*), June, p. 137

## j

## k

kidney, transplant of, with minor abnormality (*tip*), February, p. 200  
kidney disease, influenza vaccination of patients with (*tip*), January, p. 149  
kidney donor study, Harvard MDs report on, February, p. 217

## l

laryngoscopy, routine telescopic, \*June, p. 86  
lead level, 0.5 percent, recommended for household paint, March, p. 220  
lead poisoning, Bell develops new blood test for, April, p. 188  
liability, medical, Bar approves establishment of new commission on, May, p. 216  
liver function following acute myocardial infarction (*tip*), May, p. 199  
Lomotil ingestions in children, \*June, p. 93  
lung abscess, nonspecific, treatment of (*tip*), June, p. 133  
lung biopsy, hemorrhage after (*tip*), January, p. 153  
lung cancer  
—inoperable, coagulation abnormalities in (*tip*), May, p. 187  
—irradiation and hydroxyurea in (*tip*), May, p. 188  
lymph node syndrome, mucocutaneous (*tip*), April, p. 180

lymphadenitis, childhood cervical (*tip*), March, p. 209  
lymphoid hyperplasia of the ileum (*tip*), January, p. 154  
lymphoproliferative disorders, distinct alkaline phosphatase in (*tip*), April, p. 177

## m

MAC plan  
—(*ed*), March, p. 67  
—facts about (*ed*), June, p. 65  
—more on (*ed*), April, p. 67  
macroglobulinemia, Waldenström's (*tip*), May, p. 171  
malformations, nonrandom laterality in (*tip*), May, p. 182  
Mallory-Weiss syndrome (*tip*), June, p. 149  
malnutrition, intellectual development and (*tip*), March, p. 204  
malpractice insurance remains stable for pharmacists, May, p. 208  
mastectomy  
—radical, breast reconstruction after, \*May, p. 97  
—support after (*info pl*), March, p. 185  
mastectomy patients, ACS publishes book for, March, p. 225  
MBD discussed at Atlanta seminar, February, p. 222  
medical and scientific exhibits displayed at Berkeley hospital, April, p. 188  
medical licensure examinations (*ed*), March, p. 69  
meningiomas in childhood (*tip*), February, p. 197  
meningitis, partially treated (*tip*), February, p. 204  
menopause, psychohormonal treatment during, \*February, p. 99  
menstrual cycles, body weight and (*tip*), April, p. 179

methanol intoxication, treatment of (*tip*), February, p. 192  
 metiamide may be effective anti-ulcer medication, January, p. 171  
 moles, hydatidiform, biochemical changes in (*tip*), May, p. 176  
 mucocutaneous lymph node syndrome (*tip*), April, p. 180  
 mycobacteria, atypical, surgery for pulmonary infection by (*tip*), June, p. 150  
*Mycoplasma pneumoniae* and tracheobronchial clearance (*tip*), May, p. 169  
 myeloma, plasma cell, diagnosis of, \*January, p. 76  
 myocardial infarction  
     —acute, liver function following (*tip*), May, p. 199  
     —acute, nitroglycerin in (*tip*), June, p. 140  
     —analgesics in (*tip*), March, p. 205  
     —detecting arrhythmias after (*tip*), March, p. 200  
     —suggestion of (*tip*), January, p. 158  
 myoglobinemia, exertional, and rhabdomyolysis (*tip*), April, p. 168

## n

necrotizing enterocolitis, neonatal (*tip*), February, p. 201  
 nephrotic syndrome, prognosis of (*tip*), June, p. 133  
 nerve blocks, axillary, \*May, p. 135  
 nervous system  
     —autonomic, and Prinzmetal's angina (*tip*), January, p. 154  
     —sympathetic, and the pulmonary circulation (*tip*), April, p. 167  
 neuralgia, postsympathectomy (*tip*), January, p. 155

neutrophil counts in neonatal infections (*tip*), April, p. 165  
 New York City (*ed*), January, p. 55  
 nitroglycerin in acute myocardial infarction (*tip*), June, p. 140  
 nitroglycerin ointment in angina pectoris (*tip*), April, p. 172  
 nonrandom laterality in malformations (*tip*), May, p. 182

## O

obesity  
     —infantile, \*March, p. 162  
     —use of chorionic gonadotropins in, \*May, p. 156  
 obstetrics  
     —heroin addicts and their newborn infants (*tip*), March, p. 208  
     —human chromosome analysis, \*April, p. 76  
     —pharyngeal gonococcal infection (*tip*), May, p. 193  
     —riboflavin and pregnancy (*tip*), June, p. 134  
 OR, personnel in, have higher rate of adverse health, January, p. 173  
 organophosphates, a pediatric hazard, \*May, p. 121  
 osteoporosis, parathyroid hormone and (*tip*), April, p. 169  
 otalgia, \*January, p. 108  
 ouabain in chronic heart failure (*tip*), May, p. 182

## P

pacemakers, temporary transvenous, in the community hospital, \*May, p. 115  
 pancreatic scanning (*tip*), June, p. 138  
 pancreatitis, pulmonary complications of (*tip*), February, p. 208

parathyroid hormone and osteoporosis (*tip*), April, p. 169  
 Parkinson's disease, latest treatment of (*info pl*), March, p. 186  
 PEEP, hemodynamic response to (*tip*), June, p. 136  
 penicillins, newer, \*January, p. 134  
 pericarditis, infectious (*tip*), January, p. 157  
 peritoneography for diaphragmatic abnormalities (*tip*), February, p. 197  
 pertussis: a persistent problem (*tip*), May, p. 171  
 pharyngeal gonococcal infection (*tip*), May, p. 193  
 phosphatase, distinct alkaline, in lymphoproliferative disorders (*tip*), April, p. 177  
 phototherapy  
     —and growth (*tip*), April, p. 168  
     —and hyperbilirubinemia (*tip*), May, p. 193  
 phytobezoars, gastric, enzymatic dissolution of (*tip*), April, p. 179  
 plasma cell myeloma, diagnosis of, \*January, p. 76  
 platelet aggregates and sudden death (*tip*), March, p. 201  
 pneumococcal bacteremia, occult (*tip*), January, p. 153  
 pneumocystis pneumonia, diagnosis of (*tip*), June, p. 140  
 pneumopericardium, neonatal (*tip*), May, p. 199  
 poison control centers, association of, educational materials available from, February, p. 230  
 POMRs (*ed*), May, p. 73  
 popliteal artery entrapment (*tip*), January, p. 157  
 postsympathectomy neuralgia (*tip*), January, p. 155  
 pregnancy, riboflavin and (*tip*), June, p. 134  
 press and AIM (*ed*), February, p. 69

proctitis, syphilitic (*tip*), June, p. 141  
 prostate gland, managing infections of, \*February, p. 166  
 protein, uneven dietary (*tip*), March, p. 212  
 proteinuria, asymptomatic, and hematuria (*tip*), June, p. 149  
 psychogenic symptoms: criteria for diagnosis, \*April, p. 130  
 psychohormonal treatment during the menopause, \*February, p. 99  
 pulmonary alveolar hypoxia, release of vasoconstrictors during (*tip*), March, p. 213  
 pulmonary changes with salicylate intoxication (*tip*), June, p. 150  
 pulmonary circulation, sympathetic nervous system and (*tip*), April, p. 167  
 pulmonary complications  
   —of pancreatitis (*tip*), February, p. 208  
   —postoperative, \*April, p. 104  
 pulmonary infection by atypical mycobacteria, surgery for (*tip*), June, p. 150

## q

## r

radiation, medical x-ray, patients receiving too much, April, p. 193  
 radiographic abnormalities in acute asthma patients (*tip*), March, p. 209  
 rectal absorption of aspirin (*tip*), January, p. 150  
 renal transplants in children (*tip*), April, p. 165  
 reserpine  
   —in hypertension: present status, \*June, p. 120

—intra-arterial, and saline in scleroderma (*tip*), May, p. 188  
 respiratory mechanics, postoperative alterations in (*tip*), February, p. 205  
 resuscitation, rupture of the stomach after (*tip*), June, p. 142  
 retinoblastoma, sarcoma after irradiation for (*tip*), January, p. 160  
 retrolental fibroplasia, hyperoxemia without (*tip*), May, p. 177  
 Reye's syndrome  
   —\*March, p. 146  
   —(*tip*), March, p. 211  
 rhabdomyolysis, exertional myoglobinemia and (*tip*), April, p. 168  
 riboflavin and pregnancy (*tip*), June, p. 134  
 rubella immunization (*ed*), April, p. 71  
 rubella vaccine levels (*tip*), February, p. 205

## S

sacrococcygeal chordoma (*tip*), May, p. 183  
 salicylate intoxication, pulmonary changes with (*tip*), June, p. 150  
 sarcoidosis in children (*tip*), April, p. 163  
 sarcoma after irradiation for retinoblastoma (*tip*), January, p. 160  
 scleroderma, intra-arterial reserpine and saline in (*tip*), May, p. 188  
 seizures, febrile, in children, \*January, p. 114  
 septic shock, crystalloid and colloid in (*tip*), February, p. 209  
 shoulder-hand syndrome (*tip*), April, p. 177  
 sickle cell 'nondisease' (*tip*), January, p. 162

sigmoidoscopy and barium enema for inguinal hernia (*tip*), June, p. 144  
 sinusitis, acute frontal, complications of, \*May, p. 80  
 ski equipment among topics discussed at sports medicine conference, March, p. 221  
 skin lesions, disseminated candidiasis and (*tip*), May, p. 169  
 skin ulcers, ischemic, managing, \*February, p. 108  
 Skylab results, preliminary, NASA presents, May, p. 205  
 smoking and the circulatory system (*tip*), February, p. 197  
 snakebite first-aid measures, surgeon discusses, April, p. 191  
 snowmobile accidents, AAP reports on, February, p. 219  
 spherocytosis, hereditary, and open heart surgery (*tip*), April, p. 175  
 spleen, ruptured, scanning for (*tip*), June, p. 134  
 status asthmaticus, corticosteroids in (*tip*), May, p. 183  
 stomach; rupture of, after resuscitation (*tip*), June, p. 142  
 streptococcal infections, treatment of (*tip*), April, p. 169  
 students, American, abroad return to U.S. to study medicine, March, p. 223  
 surgery  
   —adrenalectomy and chemotherapy for breast cancer (*tip*), January, p. 151  
   —angina pectoris after coronary artery bypass (*tip*), January, p. 149  
   —axillary nerve blocks, \*May, p. 135  
   —biliary atresia (*tip*), March, p. 203  
   —breast reconstruction after radical mastectomy, \*May, p. 97

- carcinoid syndrome (*tip*), January, p. 158
- catheterization for inguinal hernia operations (*tip*), April, p. 164
- circumcision (*tip*), April, p. 176
- colonoscopy (*tip*), March, p. 201
- energy crisis in surgical patients (*tip*), March, p. 199
- for pulmonary infection by atypical mycobacteria (*tip*), June, p. 150
- foreign body ingestions, \*April, p. 123
- hemorrhage after lung biopsy (*tip*), January, p. 153
- hepatic portoenterostomy for biliary atresia (*tip*), April, p. 176
- irrigating wounds with topical antibiotics (*info pl*), May, p. 161
- open heart, hereditary spherocytosis and (*tip*), April, p. 175
- outpatient anorectal, \*March, p. 94
- perils and pitfalls of open tibial fractures, \*January, p. 64
- peritoneography for diaphragmatic abnormalities (*tip*), February, p. 197
- popliteal artery entrapment (*tip*), January, p. 157
- postoperative alterations in respiratory mechanics (*tip*), February, p. 205
- postoperative follow-up of ventricular septal defect (*tip*), February, p. 204
- postoperative pulmonary complications, \*April, p. 104
- postsympathectomy neuralgia (*tip*), January, p. 155
- renal transplants in children (*tip*), April, p. 165

- sacrococcygeal chordoma (*tip*), May, p. 183
- scanning for ruptured spleen (*tip*), June, p. 134
- sudden death and hexachlorophene (*tip*), March, p. 200
- support after mastectomy (*info pl*), March, p. 185
- surgical procedures in unsuspected hemophilia (*tip*), June, p. 136
- transplant of kidney with minor abnormality (*tip*), February, p. 200
- trauma, autotransfusion in (*tip*), May, p. 175
- use of, and the best way to do things (*ed*), January, p. 59
- sympathetic nervous system and the pulmonary circulation (*tip*), April, p. 167
- syphilitic proctitis (*tip*), June, p. 141

## t

- tachycardia, atrial, drugs of choice for, \*March, p. 178
- television programming, health-oriented, MD cites lack of, January, p. 172
- thromboembolism
  - diagnosis of (*tip*), May, p. 181
  - prophylaxis of (*tip*), April, p. 172
- thyrotoxicosis
  - juvenile, medical management of (*tip*), May, p. 176
  - weakness in (*tip*), January, p. 163
- tibial fractures, open, perils and pitfalls of, \*January, p. 64
- tobacco industry, MD urges Congress to stop subsidizing, February, p. 221
- toilet training (*tip*), April, p. 180

- tracheobronchial clearance, *Mycoplasma pneumoniae* (*tip*), May, p. 169
- traffic accident victims, postmortem x-ray study of, reveals head/neck injuries, June, p. 157
- traffic fatalities, safety council reports decline in, June, p. 164
- tranquilizers, AMA cautions MDs about prescribing, February, p. 217
- transfusion practices, current, \*March, p. 129
- transplant of kidney with minor abnormality (*tip*), February, p. 200
- transplants, most organ, have limited success, June, p. 172
- trauma, blunt, to the abdomen in children (*tip*), June, p. 145
- trauma surgery, autotransfusion in (*tip*), May, p. 175
- tuberculosis
  - ALA reclassifies, February, p. 218
  - hospitals for patients with (*tip*), June, p. 146
  - isoniazid-resistant, in children (*tip*), June, p. 137

## u

- ulcers, ischemic skin, managing, \*February, p. 108
- ultrasound cardiography (*tip*), February, p. 191
- urographic contrast media, side effects of (*tip*), May, p. 194

## v

- vaginal lesions, diethylstilbestrol exposure and (*tip*), March, p. 208
- vasoconstrictors, release of, during pulmonary alveolar hypoxia (*tip*), March, p. 213

ventricular blood flow velocity, left (*tip*), June, p. 145  
 ventricular fibrillation, survival following (*tip*), June, p. 142  
 ventricular septal defect, postoperative follow-up of (*tip*), February, p. 204  
 vitamin E in angina pectoris (*tip*), May, p. 195  
 voters (*ed*), February, p. 71

## W

Waldenström's macroglobulinemia (*tip*), May, p. 171

water drinking, infantile psychogenic (*tip*), April, p. 173  
 water standards, drinking, EPA administrator offers, June, p. 158  
 water survey, national drinking, 80 cities to be included in, March, p. 223  
 weight, body, and menstrual cycles (*tip*), April, p. 179  
 white blood cell counts  
   —in blacks with acute appendicitis (*tip*), March, p. 199  
   —peripheral, value of (*tip*), February, p. 196

women, young, and coronary artery disease (*tip*), April, p. 163  
 WONCA, Dr. Rice named president of, February, p. 218

### Subject Index

#### a

- abdominal abscess, ultrasound detection of (*tip*), November, p. 197
- Academy's 27th Annual Scientific Assembly, education is the goal of, July, p. 144
- adenitis, atypical mycobacterial (*tip*), October, p. 190
- adenoma, liver cell, hemoperitoneum from (*tip*), September, p. 179
- ADH secretion syndrome, inappropriate, lithium carbonate for (*tip*), July, p. 139
- adolescence
- iron intake in (*tip*), October, p. 186
  - problem drinking in, \*July, p. 103
- adolescent sexuality, \*September, p. 109
- adrenergic receptors in the urinary tract (*tip*), November, p. 179
- alcohol
- a problem drug, even in small amounts, October, p. 206
  - effects of, on penicillin (*info pl*), September, p. 171
- alcohol removal from blood (*tip*), November, p. 191
- allergic skin disease caused by cosmetics, \*September, p. 90
- allopurinol, single daily doses of (*tip*), November, p. 181
- ampicillin-resistant *Hemophilus influenzae* (*tip*), September, p. 180
- angiotensinogenic hypertension (*tip*), November, p. 193
- animals, streptococcal infections in (*info pl*), September, p. 172
- Annual Scientific Assembly an educational opportunity, August, p. 127
- antacids, OTC, report says, cause phosphorus depletion, September, p. 204
- antibiotics
- permanent catheters and (*info pl*), September, p. 171
  - susceptibility of bacteria to (*tip*), November, p. 175
- antihistamines after radiation exposure (*tip*), August, p. 113
- aortic insufficiency, calcific (*tip*), November, p. 173
- aortic stenosis, assessing severity of (*tip*), October, p. 183
- appendix, perforation of, by an IUD (*tip*), July, p. 137
- arterial embolectomy with and without Fogarty catheter (*tip*), October, p. 169
- arterial hypoxemia following fiberoptic bronchoscopy (*tip*), July, p. 130
- artery disease, coronary (*tip*), September, p. 181
- arthritis
- due to bronchogenic carcinoma (*tip*), December, p. 127

- rheumatoid, Sjögren's syndrome and (*tip*), November, p. 196
- ascorbic acid vs. the common cold (*tip*), November, p. 191
- aspirin, intolerance to, \*November, p. 119
- aspirin-like drugs and prostaglandins, \*July, p. 120
- asthma, hand nebulizers in (*tip*), September, p. 185
- atherosclerosis, causes of myocardial infarction without (*tip*), December, p. 118
- athletic injuries: heat vs. cold, \*November, p. 131
- autism, infantile (*tip*), October, p. 175

#### b

- B lymphocytes, T and (*tip*), October, p. 171
- bacteremia, anaerobic (*tip*), August, p. 115
- bacteria, susceptibility of, to antibiotics (*tip*), November, p. 175
- bed-wetting (*tip*), November, p. 197
- beer consumption in 1975 (*ed*), November, p. 80
- bicentennial celebration, MD hopes hospital ship can be used as part of, August, p. 130
- blood, alcohol removal from (*tip*), November, p. 191
- blood flow, coronary (*tip*), September, p. 192
- blood pressure, control of (*tip*), October, p. 187
- Bochdalek's hernia (*tip*), November, p. 186
- bone cement, \*September, p. 166

bone density, malnutrition and, of neonates (*tip*), December, p. 122

bowel bypass, small, for obese adolescents (*tip*), September, p. 184

bowel obstruction, small, endometriosis and (*tip*), November, p. 190

breast cancer screening, how good is thermography in, \*December, p. 78

breast tissue, infarction of (*tip*), November, p. 175

bronchogenic carcinoma, arthritis due to (*tip*), December, p. 127

bronchoscopy, fiberoptic, arterial hypoxemia following (*tip*), July, p. 130

Budd-Chiari syndrome (*tip*), October, p. 174
